

“Wild Olympics will protect my hunting access.”

-Jason Bausher
Quinault, WA

I'm an NRA Life Member who grew up in Aberdeen. Today I work in the timber industry. Living on the North Shore of Lake Quinault, I look across the water and see the spectacular South Quinault Ridge each morning.

After coming home from the mill in Raymond and spending time with my family, there is nothing I like more than hunting during the Golden Hour. The Wild Olympics Campaign is working to protect South Quinault Ridge and expand access for hunting along Queets Ridge. Not a single mile of road on Olympic National Forest or in Olympic National Park would be closed by the proposal. If you can drive there now, nothing in the Wild Olympics Proposal will change that. But it will ensure that my daughter—and her kids—will have greater opportunity to hunt, fish and otherwise enjoy our outdoor traditions.
